Is Adobe Flash Player Safe? Flash Player is a relatively old plug-in (January 1996), it has become increasingly susceptible to malware. As a result, most web browsers have even started disabling Flash Player content by default for security reasons. The problem is not necessarily Flash Player itself, but some malware is added into a seemingly ...

Features. Adobe Flash Player is a runtime that executes and displays content from a provided SWF file, although it has no in-built features to modify the SWF file at runtime. It can execute software written in the ActionScript programming language which enables the runtime manipulation of text, data, vector graphics, raster graphics, sound, and video. ...
