## **Anatomy Chapter 8 - Special Senses by Rebekah Branka | TpT**

The special senses are all primarily part  
of the somatic nervous system in that  
they are consciously perceived through  
cerebral processes, though some special  
senses contribute to autonomic function.  
The general senses can be divided into  
somatosensation, which is commonly  
considered touch, but includes tactile,  
pressure, vibration, temperature ...
