Balancing Human Rights and Environmental Protection with Diplomacy and Investment ... was met with intense public backlash from environmentalists and human rights defenders who were concerned about long-term environmental damage and the forced displacement of local communities. These fears were further compounded by the widespread belief that ...

Balancing Human Rights and Environmental Protection with ...

155 It seems entirely consistent with the case law and the 'living instrument' conception of human rights treaties to conclude that a state party must balance the rights of persons in other states against its own economic benefit, and must adopt and enforce environmental protection laws for their benefit, as well as for the protection of its own population. The same proposition applies just as much to other human rights treaties as to the European Convention.
