Better, faster, lighter Java : Tate, Bruce, 1965- : Free ...
In Better, Faster, Lighter Java, authors Bruce Tate and Justin Gehlhand argue that the old heavyweight architectures are unwieldy, complicated, and contribute to slow and buggy application code. As an alternative means for building better applications, the authors present two "lightweight" open source architectures: Hibernate—a persistence framework that does its job with a minimal API and gets out of the way, and Spring—a container that's not invasive, heavy or complicated.

Better, Faster, Lighter Java - O'Reilly Media

Better, Faster, Lighter Java with Java 12 and JHipster 6 Matt Raible. There's a lot going on in the Java ecosystem lately. Now that major Java versions are released every six months, it can be difficult to keep up. Personally, I develop the majority of my Java applications using Spring Boot. Because of this, I was stuck on Java 8 until Spring ...
