For too many children in Uganda, learning often takes place in makeshift structures or buildings that are in disrepair. For others, the nearest school is several hours away, or is simply non-existent.

Our Work & Impact | Building Tomorrow

Build wisely. It is the only life you will ever build. Even if you live it for only one day more, that day deserves to be lived graciously and with dignity. The plaque on the wall says, "Life is a do-it-yourself project." Your life tomorrow will be the result of your attitudes and the choices you make today.

Building Tomorrow, Today - The Owens Corning Canada Net Zero Story

It allows kids to build multi-story buildings with t.p. columns supporting each cardboard floor. They intuitively learn that one or two columns won't support a floor, but three columns will if placed just right, and four is easy. You could enhance this project into imaginary play realm by putting out small plastic animals or dolls and they ...

The TOMS Story | TOMS

Story of a boy and his dad building a fort together. They grab a pencil, draw the plans, head for the hardware store, come home and get to work. It's a sweet story with nice illustrations and rhyming text, and shows dad and child building together, with the child using a real hammer, helping hold the hammer, etc. Kids will like this book.
