### **Family-Centred Maternity and Newborn Care: National Guidelines**

Family-Centered Maternity Care is a type of care that we provide that focuses on the needs of mother, baby and family. Mothers and babies are cared for as a “couplet” by the same nurse, in the mother’s room, to encourage parenting skills and promote family bonding. How does it work? Family-Centered Maternity Care begins at birth.

Family-centered maternity care (FCMC) is a buzzword that's no doubt quite familiar to many in maternal/child nursing circles. In my almost-eight

years as a nurse - not long in comparison to many of my colleagues - I have seen several hospitals in my area make the switch from all separate units to some form of FCMC and rooming-in. 1 2

### **Family-Centered Maternity Care and Rooming-In - NICU ...**

FCMC is defined as the delivery of safe, evidence-based health care while recognizing, focusing on and adapting to both the physical and psychosocial needs of the childbearing woman, her family and her newborn. The emphasis is on the provision of maternal and newborn health care that nurtures and supports the family unit.

### **Family-Centered Maternity Care: One Hospital's Quest for ...**

The recent advances in person-centered care for maternal health, and the development of models and tools to understand patient experiences more accurately, come at a time when WHO's initiative on Quality, Equity and Dignity is bringing new attention to the same issues. The growing attention to this issue will help us understand both how to improve person-centered Care and how doing so might change both experiences and outcomes for women.

### **Measuring Person-Centered Maternal Health Care - Maternal ...**

Family-centered maternity care We believe in family-centered maternity care. That's why we welcome the partners of our expectant mothers into their private birthing suites. When babies are born, they are welcome to room-in with their parents.
