Islamic Perspectives On The Principles Of Biomedical Ethics

ISLAMIC BIOETHICS DERIVES FROM A COMBINATION OF PRINCIPLES, duties and rights, and, to a certain extent, a call to virtue. In Islam, bioethical decision-making is carried out within a framework of values derived from revelation and tradition. It is intimately linked to the broad ethical teachings of the Qur'an and the tradition of the Prophet Muhammad, and thus to the interpretation of Islamic law.

Islamic bioethics - IslamiCity

Islamic Medical Ethics: The principles of Islamic medical ethics are twofold. 'Whoever saves a human life has saved the life of the whole mankind.' There is then strong emphasis on saving life. The second principle sets an emphasis on seeking a cure.

Principles of Biomedical Ethics

According to this approach, the four general principles of biomedical ethics are: (1) Respect for autonomy, (2) Beneficence, (3) Non-maleficence, and (4) Justice. As a matter of fact, one can easily find all these universal principles, not only in the Holy Qur'an and among the "sayings" of the Prophet Peace Be Upon Him (PBUH), but also in teachings of many other great Muslim scholars throughout the history.[17]

Western and Islamic bioethics: How close is the gap?

medical ethics; Islam; Central to discussions concerning ethics, and medical ethics in particular, must lie an appreciation of the beliefs, perspectives, and conceptual frameworks used by our patients (boxes 1 and 2).^{1 2} This task has been made more complex in recent times following the large scale migration of peoples subscribing to moral and ethical paradigms other than those of Judeo ...
