C Programming K N King Solutions - Universitas Semarang

I'm still teaching myself C out of KN King's C Programming: Modern Approach. Actually pretty excited I got this problem solved in under 2 hours. I asked this over on Stack Overflow and it was recommended I post it here. The exercise is to print a magic square. My solution works but it feels incredibly convoluted. I'm wondering if it actually is?

C Programming: A Modern Approach - K. N. King

Chapter 8 Answers to Selected Exercises. 1. [was #4] The problem with sizeof(a) / sizeof(t) is that it can't easily be checked for correctness by someone reading the program. (The reader would have to locate the declaration of a and make sure that its elements have type t.). 2. [was #8] To use a digit d (in character form) as a subscript into the array a, we would write a[d-'0'].

Answers to Selected Exercises in Chapter 8 of ... - K. N. King

Learning C Programming is not a difficult task. Open Google and search. However being an expert at it is difficult. The best guidance one can use to learn C language is through K. N. King C Programming: A Modern Approach. As if the first edition was not a masterpiece in itself, the writer published the second one too.

C Programming: A Modern Approach, 2nd Edition By: K. N. King

This is a question from kn king's c programming : a modern approach. I can't understand the solution given by him:- The expression ++i is equivalent to (i += 1). The value of both expressions is i...
