Histology Guide Histology is the study of the microanatomy of cells, tissues, and organs as seen through a microscope. It examines the correlation between structure and function. Histology Guide teaches the visual art of recognizing the structure of cells and tissues and understanding how this is determined by their function.

While there are hundreds of optional questions that could be on your CDL knowledge test, the answers to all of them are contained in the Ohio CDL manual, so studying it is the key to succeeding. The best way to study it is to take notes while reading carefully, then review it, going over any areas that are problematic for you.
