\* Performance Evaluation and Attribution of Security Portfolios is compulsory reading for anyone who has professional responsibilities that involves performance measurement. Fortunately for these readers the authors are writers with gifts rarely found in textbooks." -- Jack L. Treynor, President of Treynor Capital Management

**Performance Evaluation and Attribution of Security ...**  
Measuring portfolio performance requires evaluation (measuring portfolio results against benchmarks) and attribution (determining individual results of the portfolio's parts). In this book, a professor and an asset manager show readers how to use theories, applications, and real data to understand these tools. Unlike others, Fischer and Wermers teach readers how to pick the theories and applications that fit their specific needs.

NPC recently reviewed the work of the KL Felicitas Foundation, who are pioneering a new approach to investment by committing 100% of their foundation's assets to positive social and environmental impact. Peter Harrison-Evans, who worked on the review, explores some of the difficulties of attributing impact to a particular intervention or investment. He argues that often it is best to remain ...

**Contribution vs. attribution in impact investing and beyond**  
Performance attribution, or investment performance attribution is a set of techniques that performance analysts use to explain why a portfolio 's performance differed from the benchmark. This difference between the portfolio return and the benchmark return is known as the active return.

Heat exchangers are widely used for heat recovery purposes in many industrial applications such as gasification systems. In a biomass gasification system situated at Melani village in Eastern Cape of South Africa, a significant quantity of heat energy is lost during syngas cooling. Thus, a heat exchanger was constructed and installed in the gasification system for the purpose of heat recovery.
