During the screen design process, the best method for writing is similar to the one in case of drawing: we need to make sketches first. In other words, you should write down at least 6-8 versions of the copy. If we are ready with that, we need to choose the best. It is worth spending time on formulating the text.

Unlike an internal communication tool where you have to pay per user, digital signage is a one-to-many approach. A screen in your office can be shown to dozens of employees. Whereas tools like Slack and email send information to a few select people, digital signage opens up the communication and increases transparency.
