Loop SWR by FoxDelta Antenna Analyzer W4UOA gave me the opportunity to assemble and evaluate / use his FoxDelta Antenna Analyzer kit FD-AAZ-0912. The assembly was easy, given that 3 surface-mount devices were pre-soldered to the main board or a daughter board. The initial power-up was successful and the device appeared to be mostly ready to go.

This Fox Delta SWR analyzer seems to be an accurate device which is remarkable since the cost of the kit, including a metal box housing, was only \$54.00. I ordered mine preassembled which arrived from India in about 10-days. The software supplied has numerous useful features such as a movable cross hair to make measurements on screen.

This SWR analyzer clearly shows the narrow 2:1 SWR bandwidth of my antenna tuner on 40 meters. When you move the mouse over the curve it provides a read of the frequency and SWR at that point of the curve. Very Nice!. When using it in generator mode (by clicking the tab) you get realtime SWR on a particular frequency so you can tune the antenna.
