This Article briefly summarizes the key points in the Tallinn Manual 2.0, including identifying some of the most important areas of non-consensus among the Experts who wrote the Manual. The Article then offers some insights into where international law on cyber operations will need to go in the future.

The Tallinn Manual 2.0: Highlights and Insights

The main tenet of the Tallinn Manual is that cyber warfare is governed by international law already in force, particularly the rules that regulate the commencement of an armed attack (jus ad bellum, UN charter, mostly effective since 1945) and the rules that regulate the conduct of armed conflict (jus in bello, including, for example, The Hague Convention of 1899 and the Geneva Convention of 1949, the latter with the 1977 amendment protocols). (T
