Bones The Basics. There are 206 bones in the adult human body,

Where To Download The Human Body My Infographic Sticker Activity Book

all of which function together with muscles and joints as well as tendons , ligaments and cartilage to form our musculoskeletal system. The bones protect our bodies, protect our organs and help shape our form from head to toe. They won't be able to sit, stand, walk or do any of the things we love doing every day without the muscles.

The Basics on Bones #infographic

The human body is so incredible and has amazing talents that are often never even discovered, such as superhuman strength. It's true that in some cases of extreme stress the body can shut down other systems and focus all energy on one, giving it heightened powers far beyond what we ever thought we were capable of.
