Aircraft Propulsion Leasing offers a wide variety of turboprop engines (including the Honeywell TPE331 and Pratt and Whitney PT6) for a number of different regional turboprop airliners and General Aviation Aircraft.

Turboprop Engine Rental and Leasing - Aircraft Propulsion ...

The PT6 is a two-shaft engine whereas the TPE331 has a single shaft design, which means the propeller, compressor and turbine are all interconnected and turn. Honeywell says the TPE331 has a 10-15% lower fuel burn than the PT6. The TPE311 engine was first developed by Garrett AiResearch, which was later acquired by Honeywell.

Opinion: TPE331 versus the PT6 - Smart Aviation Asia-Pacific

In 1964, the company's YT76 turboprop version of the TSE331 generator set was selected for the North American OV-10A counter insurgency aircraft, and entered Viet Nam War service in 1968. Garrett simultaneously developed a commercial version of the engine, for which the launch customer was the Mitsubishi MU-2 transport.
